

**Last update: December 2019**

**The following Doctors have been confirmed by this group for having Experience in treating CHI- in Canada, France, Netherlands, UK and USA all have either offered successful treatments or advice that leads to a successful treatment:**

**\*CoE denotes a 'Centre of Excellence' - these Doctors have invested in researching CHI and have proven therapy plans that have resulted in a a greater chance of live both.**

**If you are not UK-based it is highly recommended that your medical professional reaches out to collaborate with them!**

## **UK**

**UK-SE (CoE) Dr. David Williams - UCL University College London, London NHS**

<https://iris.ucl.ac.uk/iris/browse/profile?upi=DJWIL18>

Consultant Obstetric Physician at The Institute for Women's Health, University College London Hospital and Honorary Senior Lecturer in Maternal Medicine at UCL. He now runs multidisciplinary clinics at UCLH to provide a comprehensive medical service to women with acute or chronic medical disorders who are planning pregnancy, who are pregnant or who have had an adverse pregnancy outcome.

David is chairman of the NICE guideline on Intrapartum Care of women with medical disorders in pregnancy. He leads the maternal medicine research group at UCL.

**UK-NW (CoE) Professor Alexander Heazell - St. Mary's University Hospital NHS, Manchester**

<https://www.research.manchester.ac.uk/portal/alexander.heazell.html>

A specialist clinical service, the Rainbow Clinic, for parents who have experienced a stillbirth in a previous pregnancy. This is supported jointly by Tommy's the baby charity and Manchester University NHS Foundation Trust.

**UK-SE (CoE) Dr. David Williams - UCL University College London, London NHS**

<https://iris.ucl.ac.uk/iris/browse/profile?upi=DJWIL18>

Consultant Obstetric Physician at The Institute for Women's Health, University College London Hospital and Honorary Senior Lecturer in Maternal Medicine at UCL. He now runs multi-disciplinary clinics at UCLH to provide a comprehensive medical service to women with acute or chronic medical disorders who are planning pregnancy, who are pregnant or who have had an adverse pregnancy outcome.

David is chairman of the NICE guideline on Intrapartum Care of women with medical disorders in pregnancy. He leads the maternal medicine research group at UCL.

**UK - SE Mr Attila Vecsei and Dr Stone - St Richard's Hospital, Chichester.**

<https://www.westernsussexhospitals.nhs.uk/consultants/attila-vecsei/>
